Method: HPLC-DAD. LOQ = Limit of Quantitation; ND = Not Detectable, NR = Not Reported, NT = Not Tested. Unless otherwise stated all quality control samples performed within speci cations established by the Laboratory. When reporting totals, acidic cannabinoids are multiplied by 0.877 to account for loss of mass from decarboxylation upon heating; therefore this is the POTENTIAL amount upon complete decarboxylation from smoking/ vaping.

This product has been tested by Pura Analytical Laboratories using valid testing methodologies and a quality system as required by state law. Values reported relate only to the product tested. Pura Analytical Laboratories makes no claims as to the ef cacy, safety or other risks associated with any detected or non-detected levels of any compounds reported herein. This Certi cate shall not be reproduced except in full, without the written approval of Pura Analytical Laboratories. Results are representative of the sample submitted by the client on the stated date.
